

AFRILANG Stdlib

std/m/charfreq

Bibliothèque AFRILANG `std/m/charfreq` (niveau medium, catégorie medium). Elle expose 5 fonction(s) :
countChar, mostCom

```
`import "std/m/charfreq" . `use charfreq`
```

- `countChar(s text, ch text) ? number`
- `mostCommonChar(s text) ? text`
- `uniqueChars(s text) ? number`
- `alphaRatio(s text) ? number`
- `spaceRatio(s text) ? number`

Category: medium | Tier: medium | Functions: 5

FRANCAIS

1. Vue d'ensemble

Bibliothèque AFRILANG `std/m/charfreq` (niveau medium, catégorie medium). Elle expose 5 fonction(s) : countChar, mostCom

```
`import "std/m/charfreq"` · `use charfreq`  
- `countChar(s text, ch text) ? number`  
- `mostCommonChar(s text) ? text`  
- `uniqueChars(s text) ? number`  
- `alphaRatio(s text) ? number`  
- `spaceRatio(s text) ? number`
```

2. Installation & import

Ajoutez le module à votre programme :

```
import "std/m/charfreq"  
use charfreq
```

Niveau : medium · Catégorie : Modules medium (m/)
Bibliothèques intermédiaires ? import std/m/?

3. Référence API

```
? countChar(s text, ch text) ? number  
? mostCommonChar(s text) ? text  
? uniqueChars(s text) ? number  
? alphaRatio(s text) ? number  
? spaceRatio(s text) ? number
```

4. Exemples d'utilisation

```
import "std/m/charfreq"  
use charfreq  
  
create result = countChar(/* args */)   
say result  
  
create result = mostCommonChar(/* args */)   
say result  
  
create result = uniqueChars(/* args */)   
say result  
  
create result = alphaRatio(/* args */)   
say result  
  
create result = spaceRatio(/* args */)   
say result
```

5. Bonnes pratiques

- ? Préférez `import "std/m/charfreq"` en tête de fichier.
- ? Lancez `afrilang check` avant de livrer.
- ? Combinez avec les modules stdlib de la même catégorie.
- ? Voir /stdlib/ pour le source live et les démos playground.
- ? Signalez les problèmes sur GitHub si une export manque.

6. Annexe ? source

```
module charfreq  
  
function countChar(s text, ch text) returns number  
end  
  
function mostCommonChar(s text) returns text  
end  
  
function uniqueChars(s text) returns number
```

end

function alphaRatio(s text) returns number

end

function spaceRatio(s text) returns number

end

end

ENGLISH

1. Overview

AFRILANG library `std/m/charfreq` (tier medium, category medium). Exports 5 function(s): countChar, mostCommonChar, uniq

```
`import "std/m/charfreq"` · `use charfreq`  
- `countChar(s text, ch text) ? number`  
- `mostCommonChar(s text) ? text`  
- `uniqueChars(s text) ? number`  
- `alphaRatio(s text) ? number`  
- `spaceRatio(s text) ? number`
```

2. Installation & import

Add the module to your program:

```
import "std/m/charfreq"  
use charfreq
```

Tier: medium · Category: Medium modules (m/)
Intermediate libraries ? import std/m/?

3. API reference

```
? countChar(s text, ch text) ? number  
? mostCommonChar(s text) ? text  
? uniqueChars(s text) ? number  
? alphaRatio(s text) ? number  
? spaceRatio(s text) ? number
```

4. Usage examples

```
import "std/m/charfreq"  
use charfreq  
  
create result = countChar(/* args */)   
say result  
  
create result = mostCommonChar(/* args */)   
say result  
  
create result = uniqueChars(/* args */)   
say result  
  
create result = alphaRatio(/* args */)   
say result  
  
create result = spaceRatio(/* args */)   
say result
```

5. Best practices

```
? Prefer `import "std/m/charfreq"` at the top of your file.  
? Run `afrilang check` before shipping.  
? Combine with related stdlib modules from the same category.  
? See /stdlib/ for the live source and playground demos.  
? Report issues on GitHub if an export is missing or undocumented.
```

6. Appendix ? source

```
module charfreq  
  
function countChar(s text, ch text) returns number  
end  
  
function mostCommonChar(s text) returns text  
end  
  
function uniqueChars(s text) returns number
```

end

function alphaRatio(s text) returns number

end

function spaceRatio(s text) returns number

end

end
