5. Bonnes pratiques

```
? Préférez `import "std/m/entropy2"` en tête de fichier.  
? Lancez `afrilang check` avant de livrer.  
? Combinez avec les modules stdlib de la même catégorie.  
? Voir /stdlib/ pour le source live et les démos playground.  
? Signalez les problèmes sur GitHub si une export manque.

end  
  
function uniqueRatio(s text) returns number  
end  
  
function compressionRatio(original number, compressed number) returns number  
end

```
? Prefer `import "std/m/entropy2"` at the top of your file.  
? Run `afrilang check` before shipping.  
? Combine with related stdlib modules from the same category.  
? See /stdlib/ for the live source and playground demos.  
? Report issues on GitHub if an export is missing or undocumented.
